Our team includes distinguished student leaders and academic mentors who hold vital operational roles in our Foundation (as detailed in Document 3). However, to protect them from statutory liabilities, compliance obligations, regulatory filings, and director-level legal exposure, their appointments will be executed **strictly post-incorporation through internal Board Resolutions and executive engagement charters**. This ensures clean, swift MCA approval without delaying the incorporation process.

- **Institutional Collaborations & Global Linkages:** Academic MoUs with universities, scientific academies, and research bodies worldwide.

4. Mandatory Enabling Clauses in Articles of Association (Form INC-31 e-AOA)

Please ensure that the Articles of Association (Form INC-31) explicitly incorporate the following enabling provisions:

2. **Executive Operational Committees:** Authorizing the Board to appoint non-director Executive Heads, Programme Coordinators, and operational leads without statutory director liabilities.
3. **Remuneration for Actual Services Rendered:** Enabling the Foundation, pursuant to Section 8(1) and the proviso to Clause IV of the MOA, to disburse reasonable and proper remuneration/salaries to directors for actual full-time executive, technological, and administrative services.
